Care Within Reach

# ***PROXIMITY***

## Our name is our commitment

At Proximity, we understand that the profitability of a business or facility comes from the people. Whether it's the employees who administer top-of-the-line customer service, or the patients and customers that frequent your establishment, it is the people that drive profitability and success.

That is why proximity creates state-of-the-art workstations that bring people together.

For more than 20 years, our family-run company has been building furniture that doesn't just enhance efficiency, but actually helps to improve person-to-person interactions. From hospital examination rooms to training centers and police

stations, our diverse line of wall mounted workstations, medicine cabinets, retail kiosks, and modular units enable caregivers, customers and technology to interact in a safe, seamless, and effective manner.

# Triangle of Care Enhancing Patient and Caregiver Experience

Proximity's wall mounted workstations and cabinets are specifically designed to create seamless and personal interactions that will positively impact people's work and life experiences.

## Workstations built with diversity in mind

### Caregivers

With Proximity's wall mounted workstations, caregivers will have the information they need right at their fingertips.

Equipped with the information they need in a compact workstation, caregivers can administer quality care at a more accelerated, but personal rate.

To add ease and comfort to your facility's front-line staff, Proximity's cabinets are also designed with ergonomic improvements in mind. Our technologically advanced designs take care of the needs of your caregivers, so they can successfully take care of the needs of their patients.

### Patients

Proximity understands that patient care is the top priority at acute and long-term care facilities. That's why our products are designed to increase patient satisfaction by reducing errors and infections, maximizing efficiency, and creating a welcoming environment.

Don't compromise style for practicality when it comes to your facility's workstations. With Proximity units you can have both! Give patients that home-like feel with our furniture inspired and color customizable workstations. When not in use, these sleek cabinets fold up and out of the way to provide added comfort to patients and their loved ones.

Proximity's wall mounted cabinets are also formulated to drive profitability by increasing overall patient satisfaction from the time they walk into your facility to the time they walk out.

### Customers

While Proximity's workstations are the leading cabinetry units in the healthcare industry, they are designed with many other sectors in mind.

Whether it's commercial and retail or tourism and hospitality, Proximity's cabinetry units are designed to increase accessibility and efficiency so you can always leave your customers feeling satisfied.

# Exceptional work begins with a quality workstation

## Accessibility

Proximity's wall mounted workstations allow for a natural room flow with no wires, monitors or other materials disrupting bedside treatment.

## Durability

With patient care and customer satisfaction on the line, the last thing you should be thinking about is regularly servicing your workstations. That's why Proximity's cabinets are durable, long-lasting and require minimal maintenance.

## Security

Not only are Proximity workstations convenient, innovative, and ergonomically sound, they also have security features that protect each facility's confidential information.

Locking features on the exterior of the cabinets ensure that only authorized personnel have access to each workstation, while enhanced technologies inside of the system itself prompts the workstation to lock when caregivers or staff members step away from the unit.

## Aesthetics

They say first impressions are all about appearances, and Proximity's superior craftsmanship and color options are sure to make all the difference. Our furniture inspired cabinets create a warm, welcoming, and clean environment designed to increase patient satisfaction from the moment they walk through the door.

## classic Never goes out of style

Each unit in our Classic workstation line has been designed as an extension of your caregiver.

Each workstation in this line is equipped with the tools that caregivers need to turn a regular check-up, or an unexpected visit, into a pleasant experience.

## embrace Sleek and modern designs

Don't leave innovation behind when it comes to your workstations.

With a sleek, modern, and streamlined design, each workstation in the EmBrace line is sure to live up to the high quality standards of your facility.

## Custom Solutions

If one of our standard solutions doesn't meet your needs, please contact us for information on our custom solutions.

Made in the USA

# Shaping the standard in every sector we serve

## Medical

In the medical sector, patient satisfaction is the key to success. But what contributes to patient satisfaction? The presence of a caregiver at the bedside, decreased wait time, increased discharge times, and the atmosphere and environment of the room, are just a few contributing factors.

Proximity designed each wall mounted workstation with these factors in mind. As a result, our products are enhanced with point-of-care technology that puts each patient first and drives patient satisfaction through the roof.

## Government

Reduce service downtime and improve equipment availability by providing your first responders with quick and efficient access to cutting-edge technology. From fire and police stations to military and veterans' facilities, Proximity's flexible and compact cabinetry units offer durable, secure, and innovative workstation solutions.

When every second matters, trust Proximity to improve front-line efficiency.

## Commercial & Retail

Are you looking to create an environment of efficiency and productivity in your store or office? Proximity's wall mounted workspace units are designed to provide your staff with the workstation they need to do their jobs more efficiently, easily, and productively.

When you invest in office accessibility and efficiency, you're investing in success.

## Education

Reduce clutter and protect the integrity of your testing and/or training facility with custom tailored cabinetry systems. Our educational storage units ensure fewer maintenance issues and improve the safety, security, and privacy of classroom materials.

Perfect for small or seemingly unusable spaces, Proximity's wall mounted units help to improve efficiency and accessibility for instructors and students.

## Airports & Hospitality

From take-off to checkout, fast and efficient service is crucial when you work in the tourism and hospitality industries. Offer fast and secure customer assistance from practically anywhere in your facility with Proximity's wall mounted workstations and compact cabinetry units. With modern lines and modular designs, our aesthetically pleasing solutions help keep your guests moving from point A to point B.
